Re: Acreage Figures for Plan of Operations UTU-69849 (UDOGM File No. DOE/019/037)

Dear Mr. Mahoney:

On June 27, 1995 a field inspection of the above-referenced plan of operations was conducted by Sal Venticinque of my staff as well as by Anthony Gallegos of the Utah Division of Oil, Gas and Mining (UDOGM). You were present during the inspection. UTU-69849 is located within T23S, R24E (SLM), Section 9: Lot 9, Grand County, Utah.

One of our main purposes for conducting the inspection was to confirm the total acreage that may be disturbed under your Plan. You gave the inspectors a tentative verbal estimate that approximately 10 acres may be disturbed under UTU-69849. At the conclusion of our meeting we reminded you that we need your acreage estimate in writing. To date you have not yet notified us in writing of the total acreage to be covered under UTU-69849. Unless we receive a new acreage figure within 10 days of receipt of this letter, we will establish the required bond on the basis of your 10 acre estimate discussed during the field inspection. A reclamation bond covering these 10 acres will need to be posted by (or on behalf of) you. Failure to post the bond will result in cancellation of UTU-69849; all areas disturbed under this plan would subsequently need to be reclaimed.

We appreciate your cooperation during the field inspection. Should you have questions, please contact Mr. Venticinque at this office, (801) 259-2141.

Sincerely,

Area Manager
